

Wildlife In Need Center

Boy Scout Program Options

WINC offers general programming for Cub Scouts – Specify the age group and any patches or badges that your pack is working towards and we will try to help customize your program.

Girl Scout Program Options

WINC is a Community Event Provider for Girl Scouts of Southeastern WI.

Daisies:

ROSIE – Let's talk about Rosie's story and meet a few of our educational animals! Rosie teaches us how to make the world a better place. Remember, keeping our environment clean helps to make a clean home for us and for the critters living outdoors.

ZINNI – Let's read Zinni's story together! She can help teach us how to be considerate and caring. This is a great reminder to always treat others with kindness, including our animal friends. You'll also get the chance to meet some of our educational animals.

Brownies:

BUGS - Who eats bugs? Let's find out what kinds of wild animals would be hungry for bugs. During this program you'll meet some birds, reptiles and amphibians and we'll find out their favorite bugs to eat!

PETS– There is a big difference between a wild animal and a pet. During this program, we will learn about what kinds of animals would make good pets and how we should care for them. You'll also get a chance to meet a few of our educational animals and learn what to do if you find a wild animal that needs help.

Juniors:

ANIMAL HABITATS – There is no better way to learn about animals and their habitats than meeting them up-close! For this program, you'll meet some of our educational

animals, hear their personal stories, learn about their species and discover how to protect their natural homes.

Cadettes:

ANIMAL HELPERS - The Wildlife in Need Center helps thousands of wild animals in need each year, but in this program we'll talk about the numerous ways that animals can help humans. You'll meet a handful of our educational animals and we'll discuss the importance of their job!

Seniors:

VOICE FOR ANIMALS – It's time to raise awareness for animals in need! During this program we'll dive into the benefits of wildlife rehabilitation, discuss endangered species in Wisconsin and talk about ways you can get involved and make a difference.
