

Wildlife In Need Center

Wildlife in Need Center Education Program Options

(Please note: We can always work to tailor something specific to your needs.)

General Program (suitable for all ages; typically runs 30-60 minutes in length): This program includes information about what we do as a wildlife rehabilitation center, how you can get involved and helpful hints on how to peacefully coexist with our wildlife neighbors. The majority of the program is spent with a few of our educational animals as we talk about their individual stories and their natural species ecology.

General Program with Birds of Prey (suitable for all ages – bird species depends on age of group; typically runs 45-60 minutes in length): This program highlights the same topics as our General Program, but this program focusses on Wisconsin native birds of prey with appearances from a variety of our educational birds of prey.

Education Program with PowerPoint (typically runs 60-90 minutes in length)

(Please note: Programs with PowerPoint can also feature live educational animals upon request.)

The Wildlife in Need Center (suitable for Middle School age and up) This PowerPoint presentation includes information about who we are, what we do as a wildlife rehabilitation center, how you can get involved and helpful hints on how to peacefully coexist with our wildlife neighbors.

Wildlife Rehabilitation with Medical Cases (suitable for High School age and up)

This PowerPoint presentation is designed to give a more in-depth look at the Wildlife in Need Center, the types of patients admitted to WINC and how our wildlife rehabilitators treat certain medical cases.

Call Before You Kidnap (suitable for Middle School age and up) This PowerPoint presentation provides helpful information for understanding wildlife during the “busy season”, Spring and Summer. This information will help you determine if an infant or juvenile wild animal is in need of help and if it is truly orphaned or not.

Public Booth Display (suitable for all ages; typically runs 1-3 hours in length): WINC can enhance your event (street fair, festival, etc.) with a public booth set-up and live educational animals.
