

# Wildlife in Need Center

Connecting people and wildlife through rehabilitation, education and research since 1994

## Scout Programs

We offer educational programs that are a perfect way for both Boy Scouts and Girl Scouts to connect with nature. The program incorporates what we do at the Wildlife in Need Center, and includes the opportunity to meet some of our educational animal ambassadors as you learn about them and their species.

We are also excited to offer **virtual** programs over Zoom. These programs offer the chance for up to 40 scouts to be able to see our educational animal ambassadors *very* up-close and personal from their own homes!

## Girl Scout Programs

We can help Girl Scouts go through a Journey, as well as earn their Bronze, Silver or Gold Award. Our program can also be tailored to help Girl Scout troops looking to earn the following badges:

### Brownies:

**BUGS-** Who eats bugs? Let's find out what kinds of wild animals would be hungry for bugs. During this program you'll meet some birds, reptiles and amphibians and we'll find out their favorite bugs to eat!

**PETS-** There is a big difference between a wild animal and a pet. During this program, we will learn why wild animals belong in the wild, as well as see some examples of wild animals.

### Juniors:

**ANIMAL HABITATS-** There is no better way to learn about animals and their habitats than meeting them up-close! For this program, you'll meet some of our educational animals, hear their personal stories, learn about their species and discover how to protect their natural homes.

### Cadettes:

**ANIMAL HELPERS-** The Wildlife in Need Center helps thousands of wild animals in need each year, but in this program we'll talk about the numerous ways that animals can help humans. You'll meet a handful of our educational animals and we'll discuss the importance of their job!

### Seniors:

**VOICE FOR ANIMALS-** It's time to raise awareness for animals in need! During this program we'll dive into the benefits of wildlife rehabilitation, discuss endangered species in Wisconsin and talk about ways you can get involved and make a difference.

## Boy Scout Programs

Our general program is a fun and informative activity you could include at your next meeting. Our program can be tailored to your needs and could be used as an introduction to some of the environmental merit badges.
