

Raccoon Hammock Sewing Instructions

Need to use **EXTREMELY** strong canvas or jeans material, and durable braided cotton cordage, of about 1/4" diameter. Raccoon babies have sharp claws and teeth, and they like to explore with them. Please reinforce all the seams heavily!

Raccoon Hammock Instructions

1. Cut 34"x 34" square.
2. Fold corners in 4", and securely sew them in place on all three sides.
3. Fold each side of the square in 2" and sew straight, leaving approx. 1/2" seam allowance.
4. Run 140 inches of cordage along the newly sewn "channels", and securely tie knots at one corner.

Thank you!
